CAREER OBJECTIVE

To grow in a progressive organization where my educational skills can help in achieving the goals of the company. I aim to exploit my potential and sense of responsibility for the benefit of the organization.

EDUCATION

CMR UNIVERSITY

Bangalore Karnataka.

(MCA) Master of Computer Application

Krishna Chaitanya Degree College

Nellore, Andhra Pradesh.

(BCA) Bachelor of Computer Application

RELEVANT SKILLS

Languages and Tools : | Html | | CSS | | Java Script (Basics) | | React JS (Basics) | | Python (Basics) | | Basics of Git & GitHub |

Communication Skills : Developed through presentations, group projects, and interactions with professors and classmates.

INTERNSHIP

Worked as Data Analyst Intern in JODO Company , Bangalore , Karnataka.

Responsibilities:-

- Assisted in collecting, cleaning, and analyzing large datasets to inform business decisions.
- Developed maintained databases using SQL and MS excel tools.
- Created data visualizations using data visualization software to present Loan Details
- Conducted data quality checks and ensured data accuracy and integrity

PROJECT

• Intelligent Distribution of Fresh Agricultural Products (FAP) in Smart Cities:

With the construction of smart cities and the continuous improvement of living standards, residents' demand for fresh agricultural products has increased dramatically. This project focuses on the intelligent distribution of FAP in smart cities to guarantee product quality, improve distribution efficiency, reduce costs, and increase customer satisfaction.

- Developed models based on road conditions affecting refrigerated vehicle speed.
- Constructed a penalty cost function based on the characteristics of FAP.
- Established a customer satisfaction evaluation model using fuzzy logic.
- Built and solved a mathematical model to minimize distribution costs and maximize customer satisfaction using an improved quantum-behaved particle swarm optimization algorithm (IQPSO).
- Verified the effectiveness of IQPSO through simulation, achieving good results and balancing distribution costs with customer satisfaction
- Technologies Used: Fuzzy Logic, Quantum-behaved Particle Swarm Optimization (QPSO), Simulation Software

CERTIFICATES

Data Internship Certificate - Jodo Company

Successfully completed a data intern internship focusing on sql , ms excel.
